

Aggressive. Trustworthy. Responsive.

WHY CHOOSE THE ANVIL TEAM?

Simple, we're Aggressive, Trustworthy & Responsive. At Anvil Legal Group, PLLC we consider our clients part of our team. You will not become just another name or file number in our office.

Our attorneys have a combined 44 years experience practicing law. We have been involved on both the plaintiff and defendant side of injury cases and utilize this knowledge to maximize our client's recovery.

Our attorneys have recovered millions on behalf of injured clients. We only handle personal injury cases and if we do not obtain a recovery on your behalf you will owe nothing in legal fees.

WHAT IS YOUR CASE WORTH?

While there is no standard monetary evaluation of a personal injury case there are some factors that will help establish the value of your claim, including but not limited to the severity of your injuries and treatment, lost wages and earning capacity and who is at fault for the injury. It remains our goal to obtain the maximum recovery possible on behalf of our clients.

WHAT CAN YOU DO TO HELP?

Even though our legal team is exceptional when it comes to pursuing personal injury claims, your cooperation is essential. You can help expedite your claim by preserving all documentation associated with your case. This includes medical records, treatment regimens, prescribed medications, police reports and following the advice of our attorneys and paralegals.

We appreciate that you have considered Anvil legal Group, PLLC as your legal advocate. We remain committed to our clients through all facets of an injury claim. We look forward to serving you and trust you will be satisfied with the services we provide.
